

# Mr. Rohan Verma

## Executive Director & Chief Technology Officer, MapmyIndia

Rohan has been a technology thought-leader from the start. At the age of 19, he created India's very first interactive mapping portal – [mapmyindia.com](http://mapmyindia.com). Since then, he has been bringing best-in-class cutting-edge technologies to the Indian geospatial industry, including India's best GPS Navigation system, Advanced Maps & APIs that can power safer self-driving cars, powerful GPS-based IoT devices, valuable location-enabled Enterprise SaaS and delightful consumer apps.

Rohan is committed to empowering the whole ecosystem of Smart City administrators, government agencies, enterprises, app developers and consumers. He is regularly invited to speak at various industry forums and media events, and has been profiled by CNBC as a 'Young Turk' and by India Today as one of 30 'Indians of Tomorrow'. He is a member of the FICCI committee on Geospatial Technologies, and advises senior business and government leaders as well as the public at large on how to benefit from digital maps and location technologies.

Rohan holds a Bachelor of Science degree in Electrical Engineering from Stanford University and an MBA (with Distinction) from London Business School. Besides academics, Rohan enjoys travel, dance and sports. He is married to Namrata, has two baby boys and lives in New Delhi.
