

MapmyIndia Launches GPS Navigation Device In Punjab

FW BUREAU
Chandigarh, July 24

MapmyIndia today launched its GPS (Global Positioning System) device in Punjab. With this new in-car GPS navigation device, traveling anywhere in Punjab will become easier and secure.

Giving information about the device, the vice-president of CE Info Systems (P) Ltd, said this sleek, satellite-connected, hand-held devices preloaded with highly detailed maps of 174 cities including Amritsar, Jalandhar, Ludhiana, Chandigarh, Panchkula, Mohali and many more. MapmyIndia Navigator identifies your exact location on a digital map and leads you to your destination with voice-guidance.

"MapmyIndia Navigator has received great response from users, who appreciate it for its innovative features, the sense of security it offers by always telling them where they are, and the convenience it provides by guiding them turn-by-turn to their selected destination, anywhere across India.

MapmyIndia, after 15 years of efforts, today provides India's most comprehensive maps in the hands of consumers, and it is our commitment to continually provide our customers with India's best maps and navigation solutions," says Rakesh Verma, MD, MapmyIndia.

MapmyIndia Navigator is available at over 500 outlets across India, including authorised General Motors and Ford dealerships, car accessory outlets, and consumer electronics retail chains and outlets. It can also be purchased from MapmyIndia directly. Two hardware models of MapmyIndia Navigator are
