

PRESS RELEASE

MapmyIndia now covers 4,787 Indian cities with launch of version 8.0 maps

- Upgrades navigation coverage to latest version 8.0 maps
- Maps of Union Territories Andaman & Nicobar Islands and Lakshadweep introduced
- Updated maps now cover 10.33 million places; 1.9 million road kilometers; 600,000 villages; 4,787 cities at street-level; 50 cities at house-level; 46 cities in full 3DDriving directions to 30,000 tourist locations

New Delhi, 26 April 2013: MapmyIndia, India's leader in digital maps, GPS navigation and location apps for consumers and enterprise, today announced the launch of version 8.0 maps of India, which would be included in all MapmyIndia navigation solutions. The maps – India's most comprehensive, exhaustive, detailed and updated map coverage – now cover 10.33 million places; 1.9 million road kilometers; 600,000 villages; 4,787 cities at street-level; 50 cities at house-level; 46 cities in full 3D. It also includes best-in-class advanced and localized navigation and driver assistance features such as extended lane guidance, junction views, sign-posts, live traffic, city guides and rich points of interest, regional voice guidance and regional maps.

MapmyIndia's version 8.0 maps provides **best-in-class advanced navigation and driver assistance features** with visual cues, such as:

- **Extended lane guidance** (telling the user which lane to get into prior to a turn or exit), **junction views** (how the upcoming intersection looks in real-life)
- **Sign-posts** (which major landmarks, localities and cities lie in the direction of upcoming turns),
- **Day-time based turn restrictions** (based on time and day, whether the particular road is 2-way or one-way in a particular directions) and
- **Live traffic** (what is the live congestion on roads in the city).

MapmyIndia continues to offer the most localized navigation experience, with **city guides** and **rich points of interest** (which provide detailed descriptions and photographs of places to visit, stay, eat and shop in popular tourist destinations and cities) voice guidance in 10 **regional languages** and is also introducing **regional maps** in 4 local languages (which displays the map in the regional language), to aid users who prefer to communicate and interact with the navigation systems in local Indian languages and not just English.

MapmyIndia's maps are being aggressively adopted by Indian consumers and car manufacturers, with MapmyIndia occupying the dominant market leader position in automotive navigation. Top-selling car models have introduced MapmyIndia navigation as part of their offering – such as the new Honda City sedan, the new

Tata Manza entry-level sedan, the top-selling Mahindra XUV 500 SUV and the premium Mahindra Ssangyong Rexton SUV, the Ford Endeavour SUV, the BMW 7, 5 and 3 series luxury sedans, The Jaguar-Land Rover Freelander 2, Range Rover Evoque, the Fiat Linea sedan, the Renault Scala sedan, among others. MapmyIndia has already collaborated with all leading car manufacturers across India to offer MapmyIndia navigation to their consumers, including BMW, Jaguar-Land Rover, Mercedes, Toyota, Honda, Volkswagen, Renault, Mitsubishi, GM, Ford, Tata, Mahindra and Maruti.

MapmyIndia's GPS navigation system enables accurate turn-by-turn voice-guided navigation to the building doorstep, not just a nearby landmark or the general locality. The version 8.0 MapmyIndia maps continue to provide **best-in-class full 3D coverage** of India, with digital elevation models and terrain across India, thousands of full-scale **3D landmarks** across India, which offer **life-like 360-degree views** of popular tourist and commercial landmarks, and full **3D city models** containing 3D buildings in residential and commercial areas for 46 major cities across India, including all the major metropolitan areas.

Customers can buy MapmyIndia's GPS navigation systems and update the maps to version 8.0 in their existing navigation systems by visiting MapmyIndia's online store: www.mapmyindia.com/store
